Many family and friends helped me on this journey to finally producing this CD. You may have been my voice teacher or choir director or fellow singer or healing partner. I have been very blessed with a loving family, many friends, colleagues, and clients along the way.

For this CD project I want to especially thank the persons already noted on the CD liner and also those who I include below because of limited space. I want to express my appreciation:

-most recently, to Brian, Rich, Mike, Derek and Fernando at DiscMasters for the CD and to Mike and Matt for the website at www.metalogicdesign.com for your patience, kindness and expert direction

-to Kyle Schmidt, recording engineer, and Benji Hughes, owner, of Backthird Audio for your expertise and care. You were a delight to work with as you helped us newbies. I will forever remember your face, Kyle, when we started singing the Belly Button song.
